

**MEMO ENDORSED**

*CASE No. 07-CR-929 (KMK)*

**SARAN S. ROSNER, M.D.**

**NEUROLOGICAL SURGERY**

245 Saw Mill River Rd.

Hawthorne, N.Y. 10532

(914) 741-2666

June 26, 2008

Hon. Judge Kenneth M. Karas  
United States Courthouse  
300 Quarropas Street, Room 533  
White Plains, NY 10601

**RE:** Henry Steeneck

Dear Judge Karas:

This letter is to update you on Mr. Steeneck's medical condition. He was admitted yesterday to the Hudson Valley Hospital, where a repeat lumbar puncture and radioisotope cisternogram study was performed. The study is a 48-hour study and will be completed tomorrow. I suspect that the study will indicate a need for shunt revision and replacement of his valve. I am hoping that this can be accomplished prior to the July 4, 2008 holiday, where after a short convalescence of 10 days or so he should be medically able to safely return to confinement.

As always, if you required, I would be happy to discuss his condition with you at our mutual convenience.

Sincerely,

Saran S. Rosner, M.D.
